School Finance Policy

Policy 6230: Budget Hearing

The annual budget adopted by the Board represents the Board's position on the allocation of resources required to operate an appropriate system of education. All reasonable means shall be employed by the Board to present and explain that position to all interested parties. A public budget hearing will be conducted prior to adoption of the final budget at which time a full itemized report of the District's finances shall be presented.

The report will include the budget summary required under 65.90, Wis. Stats.

Each member of the Board and each administrator in the District shall be sufficiently acquainted with the budget and its underlying purposes to answer questions from members of the public.

A simplified form of the budget may be prepared annually and may be sent to appropriate parties and distributed to each person attending the annual budget hearing.

A simplified budget may include the expenditure in each major category of current expense for the current year and the coming year and a summary of anticipated receipts as well as a brief explanation of significant increases and decreases from the preceding budget.

The final budget approved by the Board shall be made available to the public in the form and places as required by law.

Legal 65.90, Wis. Stats. 120.11(3), Wis. Stats, (for common or union high districts only)

Policy 6220: Budget Preparation

The District's operation and educational plan is reflected in its budgets. Each year, the Board will review and approve the District budget which will be prepared in accordance with applicable law and regulations.

Each budget shall be designed to carry out District goals and operations in a thorough and efficient manner, maintain District facilities properly, and honor the continuing obligations of the Board.

The Board shall ensure that adequate funds are reserved for the General Fund in accordance with Policy 6235 - Fund Balance.

A proposed budget requires the critical analysis of every member of the Board prior to approval; once adopted, the budget deserves the support of all members of the Board regardless of their position before its adoption.

The Board directs the Superintendent or Director of Finance and Human Resources to present the budgets to the Board along with all available information associated with each budget in sufficient time to allow for proper analysis and discussion prior to the hearing.

When presented to the Board for review and/or adoption, the information shall be presented as prescribed by State law, and in the format provided by the Wisconsin Department of Public Instruction.

Legal 65.90, Wis. Stats

Policy 6231: Budget Implementation

The Board places the responsibility of administering the budget, once adopted, with the Superintendent.

The Superintendent is authorized to proceed with making financial commitments, purchases, and other expenditures within limits provided in the Board-approved budget, limitations stated in Board policies, and within legal authority expressed in State statutes.

Listings of expenditures, appropriate financial reports, and budget comparison reports shall be submitted monthly to the Board to keep members informed as to the status of the budget and overall financial condition of the District. Once each month, the Board minutes shall include a statement of the receipts and expenditures in the aggregate.

If, during the fiscal year, it appears to the Superintendent that actual revenues are less than estimated revenues, including the available equity upon which the appropriations from the fund were based, the Superintendent shall present to the Board recommended amendments to the budget that will prevent unplanned expenditures from Fund Balance. The Superintendent shall make recommendations in accordance with requirements of the law and provisions of negotiated agreements. Such budget amendments must be approved by a two-thirds (2/3's) affirmative vote of the entire membership of the Board.

SCHOOL FINANCE BACKGROUND

Budget Overview and Explanation

The Port Washington–Saukville School District's annual budget book provides a comprehensive overview of the district's financial position and planning for the upcoming fiscal year. Within these pages, readers will find detailed breakdowns of revenues and expenditures across all district funds, including operational, special education, debt service, and capital improvement accounts. The document also highlights changes in the district's equalized property value, outlines the tax levy distribution by municipality, and provides an overview of the total levy and corresponding mill rate. This information is intended to promote transparency, fiscal responsibility, and a clear understanding of how district resources are managed to support student learning and long-term financial stability.

Property Tax Levy Overview and Explanation

School district spending in Wisconsin is limited by a formula called the revenue cap. The revenue cap limits the amount of revenues available to a school district from the two main sources of school revenues – property taxes and state equalization aid. The two sources of revenue work together in the formula. For example, when state equalization aid is reduced, property taxes go up. When state equalization aid is increased, property taxes go down.

Fund Terminology

Fund 10 General Fund

- This fund is used to account for all financial transactions relating to the district's current operations.

Fund 21 Special Revenue Trust Fund

- This fund is used to account for trust funds that can be used for district operations. The source of such funds is gifts and donations. Cash and investments in this fund are expended pursuant to donor specifications. There may be a fund balance in this fund.

Fund 27 Special Education Fund

- This fund is used to account for the excess cost of providing special education and related services for students with disabilities during the regular school year or extended school year. Also included are charges for services provided to other districts as a result of being a host district for a special education package or cooperative program. School Age Parent costs are also charged to this fund. No fund balance or deficit can exist in this fund.

Fund 38 Non-Referendum Debt Service Fund

- This fund is used to account for transactions for the repayment of debt issues that were either: not authorized by school board resolution before August 12, 1993, or incurred without referendum approval after that date. A fund balance may exist in this fund.

Fund 39 Referendum Approved Debt Service Funds

- This fund is used to account for transactions for the repayment of debt issues that were either authorized by school board resolution before August 12, 1993, or approved by referendum. The district may account for such referendum approved debt service transactions in Funds 31, 32, 33, 34, 36, 37 (which are not presently assigned by DPI for reporting purposes) and/or Fund 39. If the district uses funds other than Fund 39, the district must combine and report these funds as Fund 39. A fund balance may exist in this fund.

Fund 41 Capital Expansion Fund

- Projects financed with tax levy per statute 120.10(10m). State statute restricts the use of this fund for capital expenditures related to buildings and sites. Equipment cannot be acquired through the use of this fund. For the purpose of determining eligible expenditures from this fund, the DPI defines “capital expenditures related to buildings and sites” as being expenditures for acquiring and remodeling buildings and sites, and maintenance or repair expenditures that extend or enhance the service life of buildings and building components, sites and site components.

Fund 46 Long Term Capital Improvement Trust Fund

- A school board with an approved long-term capital improvement plan (minimum of 10 years) may establish a “trust” that is funded with a transfer from the general fund. The contribution from Fund 10 to Fund 46 (Long-term Capital Improvement Trust Fund) is recorded as the expenditure for shared cost and equalization aid purposes. Future expenditures from Fund 46 are not part of shared costs. A school board is prohibited from removing money deposited into Fund 46 for a period of five years after the fund is created. After the initial five year wait period is over, funds may only be used for the purposes identified in the approved long-term capital improvement plan. Fund 46 assets may not be transferred to any other school district fund.

Fund 49 Other Capital Project Fund

- Used to report Capital Project Fund activities not required to be reported in Funds 41 or 48. The district may account for such projects in Funds 42, 43, 47 (which are not presently assigned by DPI for reporting purposes) and/or Fund 49. If the district uses funds other than Fund 49, the district must combine and report these funds as Fund 49. A fund balance may exist in this fund.

Fund 50 Food Service Fund

- All revenues and expenditures related to pupil and elderly food service activities are recorded in this fund. A fund balance in the Food Service Fund is permitted. There may be no deficit in the district's Food Service Fund. Any food service fund deficit, resulting from student food services, must be eliminated by an operating transfer from the General Fund. Any food service fund deficit, resulting from elderly food services, must be eliminated by a transfer from the district's Community Service Fund. The maximum that may be transferred if the district does not have a deficit in the Food Service Fund is limited to an amount necessary to cover a current year deficit in a particular food service program (National School Lunch, Breakfast, Ala Carte, etc.)

Fund 73 Employee Benefit Trust Fund

- This fund is used to account for resources held in trust for formally established defined benefit pension plans, defined contribution plans, or employee benefit plans. Such plans must be legally established in accordance with state statutes, federal laws and Internal Revenue Service requirements. Specific requirements for use of this fund have been established by the Department of Public Instruction. This fund applies to all post-employment benefit plans where the district is providing such benefits by contribution to a legally established irrevocable trust.

Fund 80 Community Service Fund

- This fund is used to account for activities such as adult education, community recreation programs such as evening swimming pool operation and softball leagues, elderly food service programs, non-special education preschool, day care services, and other programs which are not elementary and secondary educational programs but have the primary function of serving the community. Actual, additional expenditures for these activities including salaries, benefits, travel, purchased services, etc. are to be included in this fund to the extent feasible. The district may adopt a separate tax levy for this Fund.

Fund 95/99 Other Package and Cooperative Program Fund

- This fund is to be used for all other types of cooperative instructional funds. No fund balance or deficit can exist in this fund. Special education related cooperative programs should be accounted for in Fund 27.
 - This fund will no longer be utilized as this is being shifted to CESA for 2025/2026.

DISTRICT ENROLLMENT

Total Head Count

- Head count does not equal pupil count and is the number of students in each classroom on the third Friday of September. This typically includes resident students in the building and open enrolled students.

Pupil Count (Historical) – Snapshot for 25/26 (No Summer School)

- Pupil count includes residents enrolled in the district and resident students in the boundaries of the school district that attend other districts. The district is provided revenue based on total students living in the boundaries of the school district. The school district is provided the revenue for these students and then has to report open enrolled out and the income per the DPI determined amount for each student open enrolled out. For 2025/2025 each district is estimated to receive \$10,102 per general pupil and \$ 14,454 per pupil with disabilities.
- Historical resident counts are included in the table below

Year	Total # Resident Enrolled	Total # Outgoing Resident	Total # Incoming Non-Resident	Total Enrolled

Fund 10 Expenditure Key Impacts

- Reduction in staff (salary and benefits) to accommodate declining enrollment.
- Health insurance savings to create a 0% increase.
- Decrease in Special Ed flow thru funding, therefore an increase in the inter-fund transfer for special ed.
- Reduction in building base budget and bulk purchasing.
- Transfer to fund 46 capital maintenance fund.
- At least a 2.95% CPI increase across all employee groups included.
- Purchase of math curriculum and additional resources for reading curriculum included.
- Technology purchases through E-rate did not come in last year, moved to this year
- Transportation budget increase (more riders/routes)
- \$150,000 contingency for unknown capital emergencies

Fund 10 Revenue Key Impacts

- No ESSER funding included, finished in 24/25.
- Declining enrollment which also impacts revenue from student fees/athletic event.
- General aid (state) reduction and offset by property taxes.
- Pre-payment to debt service, creating total revenues/expenditures to seem higher.
- Grant for culinary arts lab included in budget.

General (State) Aid for 2025-2026 decreased. A school district's total revenue limit is directly tied to the balance between State Aid and local property tax contributions. When one source increases, the other decreases, meaning the overall amount of revenue available to the district does not necessarily grow, but rather shifts in its funding source.

2025-2026: \$17,191,938 State Aid

2024-2025: \$17,606,662 State Aid

2023-2024: \$17,115,727 State Aid
