

OFFICIAL PUBLIC NOTICE

Port Washington-Saukville School District
100 West Monroe Street
Port Washington, WI 53074

ASBESTOS NOTIFICATION 2023-24 SCHOOL YEAR

As a result of federal legislation (Asbestos Hazard Emergency Response Act - AHERA), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos-containing building materials. The Port Washington-Saukville Schools has a goal to be in full compliance with this law and is following the spirit, as well as, the letter of the law. As a matter of policy, district shall continue to maintain a safe and healthful environment for our community's youth and employees.

In keeping with this legislation, all buildings (including portables and support buildings) owned or leased by the Port Washington-Saukville School District were inspected by an EPA accredited inspector and samples were analyzed by an independent laboratory. Based on the inspection, the school prepared and the state approved a comprehensive management plan for handling the asbestos located within its buildings safely and responsibly.

Furthermore, the Port Washington-Saukville School District has completed its 3-Year Re-inspection required by AHERA. Our district buildings, where asbestos-containing materials were found, are under repair, removal and Operations and Maintenance.

This past Year the Port Washington-Saukville School District conducted the following with respect to its asbestos-containing building materials:

**Port Washington-Saukville School District has implemented our Operations and Maintenance Program to maintain asbestos building materials in good condition.*

Federal law requires a periodic walk-through (called "surveillance") every six months of each area containing asbestos. Environmental Management Consulting, Inc. (EMC) will accomplish this under contract.

Short-term workers (outside contractors i.e., telephone repair workers, electricians and exterminators) must be provided information regarding the location of asbestos in which they may come into contact. All short-term workers shall contact the lead maintenance person before commencing work to be given this information.

The Port Washington-Saukville School District has a list of the location(s), type(s) of asbestos-containing materials found in that school building, and a description and timetable for their proper management. A copy of the Asbestos Management Plan is available for review in the school office. Copies are available at 25 cents per page. Questions related to the plan should be directed to Bill Freeman, with EMC, at (920) 648-6343, or by contacting the Port Washington-Saukville School District.

Board of Education approved: September 11, 2023

Yvonne Klotz
School District Clerk
